

## Key to Abbreviations and Symbols

- Where we are unsure of a person's years of employment, we have used a **brace** { and/or } to indicate uncertainty about the start of employment, the end of employment, or both.
- **Names in bold** indicate the individual(s) and/or document(s) from which the information was obtained.
- The People page contains armed services abbreviations relating to WWII. We have used the conventional short forms in such cases and have not included these abbreviations in the list below.
